19 **"20-10-141. Schedule of maximum reimbursement by mileage rates.** (1) The mileage rates in
20 subsection (2) for school transportation constitute the maximum reimbursement to districts for school
21 transportation from state and county sources of transportation revenue under the provisions of 20-10-145 and
22 20-10-146. These rates may not limit the amount that a district may budget in its transportation fund budget in
23 order to provide for the estimated and necessary cost of school transportation during the ensuing school fiscal
24 year. All bus miles traveled on bus routes approved by the county transportation committee are reimbursable.
25 Nonbus mileage is reimbursable for a vehicle driven by a bus driver to and from an overnight location of a
26 school bus when the location is more than 10 miles from the school. A district may approve additional bus or
27 nonbus miles within its own district or approved service area but may not claim reimbursement for the mileage.
28 Any vehicle, the operation of which is reimbursed for bus mileage under the rate provisions of this schedule,

1 must be a school bus, as defined by this title, driven by a qualified driver on a bus route approved by the county
2 transportation committee and the superintendent of public instruction.

3 (2) (a) The rate for each bus mile traveled must be determined in accordance with the following
4 schedule:

11 (vi) \$1.80 for a school bus with 80 or more passenger seating positions.

12 (b) Nonbus mileage, as provided in subsection (1), must be reimbursed at a rate of 50 cents a
13 mile.

14 (3) The rated capacity is the number of passenger seating positions of a school bus as determined
15 under the policy adopted by the board of public education. The board may not adopt a rated capacity that
16 exceeds the rated capacity of the school bus as determined by the school bus manufacturer. If modification of a
17 school bus to accommodate pupils with disabilities reduces the rated capacity of the bus, the reimbursement to
18 a district for pupil transportation is based on the rated capacity of the bus prior to modification.

19 (4) The number of pupils riding the school bus may not exceed the passenger seating positions of
20 the bus."
