Description of fiscal impact

HB 308, as amended in the House Appropriations Committee, extends the distribution and statutory appropriation for metal mines license tax collections to counties to June 30, 2035. Under current law, the distribution to the general fund would change from 47% to 57% at the beginning of FY 2028. If HB 308 passes, it would reduce general fund revenue by \$1.5 million per year in FY 2028 through FY 2035. The amendment reduced extension of the sunset from ten years to eight years.

FISCAL ANALYSIS

Assumptions

Department of Revenue

- Under current law, the metal mines license tax is set to increase the state general fund share of total metal mines tax collections from 47% to 57% starting in FY 2028. The distribution mental mine producing counties would drop from 35% to 25%.
- HJ 2 forecasts were used to estimate the revenue that would stay at the county level and otherwise not be distributed to the general fund. The amendment to HB 308 in the House Appropriations Committee reduced the extension of the sunset from ten years to eight years. The tables below show the shares distributed the general fund and county governments in millions of dollars, and the difference in fund balances between current law and HB.308.

	FY	Growth	Total Receipts			General Fund	County Governments
Current Law	2026	-6.01%	\$14.755488	GF (47%)	CG (35%)	\$6.935079	\$5.164421

2029	-\$1.565408

3. The general fund reduction would be \$1,515,992 in FY 2028 and \$1,565,408 in FY 2029.
4. There is no additional cost to the department to implement this change.
