Description of fiscal impact

HB 867 establishes a medical assistance program for licensees under the Board of Chiropractors and the Board of Veterinary Medicine. The program will assist licensees dealing with physical or mental impairments, including substance abuse. A fee will be established to fund the program.

FISCAL ANALYSIS

Assumptions

Department of Labor and Industry

1. The Department of Labor and Industry (DLI) estimates that the cost to add the two boards to the existing medical assistance program will be \$29,000. The cost to the Board of Chiropractors would be \$8,000 per year based on the 550 active licensees, and the cost to the Board of Veterinarians based on 1,730 active licensees is estimated to be \$21,000 per year.
2. License fees for the program will be set commensurate with costs.

Department of Public Health and Human Services

3. HB 867 establishes a medical assistance program for licensees under the Board of Chiropractors and the Board of Veterinary Medicine. The program will assist licensees dealing with physical or mental impairments, including substance abuse, and will be funded through a fee adjustment. The respective board under the Department of Labor and Industry (DLI) creates the medical assistance program, therefore there is no fiscal impact to DPHHS.
