Description of fiscal impact

SB 91 requires the citizenship indicator to be updated on Montana credentials. The vendor prints and mails the credentials to customers. Further, programming in the Credentialing and Registration System (CARS) would be necessary to indicate which credentials would receive the citizenship indicator.

FISCAL ANALYSIS

Assumptions

Department of Justice

1. The Montana credentials would require a design change on driver license and identification cards.
2. The quote from the vendor for the design change on the credential is \$116,941.
3. The CARS system would need programming, to flag credentials, for the citizenship indicator to the vendor.
4. The quote from CARS vendor is \$60,000 and would cover programming for interface changes, transaction requirement changes, and workflow management changes for increased audit review.
