Description of fiscal impact

HB 58 redirects funding in the Department of Environmental Quality (DEQ), originating from the Orphan Share fund, from the Metal Mine Reclamation Project Fund to establish a State Special Revenue Fund to cover costs for water treatment at the CR Kendall Mine. The total funding impact for DEQ would have a net impact of zero.

FISCAL ANALYSIS

Assumptions

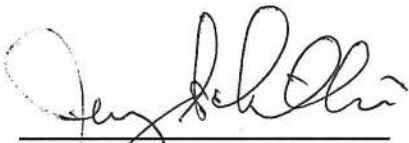

Department of Environmental Quality

1. HB 58 establishes a state special revenue account known as the CR Kendall Operating Expenses account.
2. Per 75-10-743, MCA, up to \$1.2M annually will continue to be transferred from Orphan Share to the Environmental Quality Protection Fund (EQPF) annually.
3. Per 75-10-704, MCA, 50% or up to \$600,000 annually of Orphan Share transfer will continue to be directed from EQPF to the Libby Asbestos Superfund Site.
4. Per 75-10-704, MCA, 50% or up to \$600,000 annually of Orphan Share transfer will be directed from EQPF to metal mine reclamation.
5. Section 75-10-704, MCA, is amended to direct \$500,000 annually of the metal mine reclamation funds to the state special revenue fund established for water treatment at the CR Kendall Mine through June 30, 2038.
6. Section 75-10-704, MCA, is amended to direct up to \$100,000 annually to metal mine reclamation projects at abandoned mine sites, as provided in 82-4-371, MCA.
7. Due to an influx of federal funding, the DEQ Abandoned Mine Lands Program has adequate federal funding for thirteen years and a reduction of the transfer from the EQPF transfer will not impact metal mine reclamation projects at abandoned mine sites.
