#### Description of fiscal impact

##### Department of Natural Resources and Conservation

House Bill 8 would be used to provide loans to communities who need financial assistance in completing their projects including regional water projects and irrigation facilities.

### FISCAL ANALYSIS

#### Assumptions

##### Department of Natural Resources and Conservation

1. This funding is for the biennium and is split between the two years.
2. Bonds would be issued over a two-year period.
3. Revenue shown comes from bond proceeds.
4. The reserve and cost of issuance are included in the bond issuance.
5. The loan repayments will be used to repay the bonds.
6. The total amount authorized for bonds is \$121,198,444. Of this amount, up to \$12,119,844 is authorized for the reserve (estimated to be \$11,869,844) and cost of issuance (estimated to be \$250,000), leaving \$109,078,600 for loans on the projects

**Effect on County or Other Local Revenues or Expenditures****Department of Natural Resources and Conservation**

1. House Bill 8 will allow state agencies and local governments to apply for and receive loans to complete renewable resource infrastructure projects.
2. Regional water projects will use the funds to match federal dollars on projects.
3. Dam and Irrigation projects will address safety issues and improve their ability to provide water for their intended purpose.

**Technical Concerns****Department of Natural Resources and Conservation**

1. The loans to the state will provide funding to rehabilitate high hazard dams or construct new infrastructure.
2. Section 3 states: "The board of examiners is authorized to issue coal severance tax bonds in an amount not to exceed \$121,198,444 in the biennium beginning July 1, 2025, of which up to \$12,119,844 is to be used to establish a reserve for the bonds." This language includes the reserve amount within the \$121,198,444 and therefore reduces the amount that can be loaned for the projects. To be able to loan the full project amounts and establish a reserve, the authorized bond amount would need to be \$133,318,288.
