Description of fiscal impact

HB 418 prohibits both the administration of gene-based vaccines into animals and the importation of animals treated with or exposed to gene-based vaccines, providing a penalty for such actions. There is a cost to the Department of Labor and Industry (DLI) for initial rulemaking.

FISCAL ANALYSIS

Assumptions

Department of Livestock

1. Adding the new import restriction will not alter Livestock's budget, duties, or operational tempo.
2. HB 418 creates a \$500 fine for purposefully or knowingly prescribing or dispensing gene-based vaccines in animals.
3. Fines collected will be deposited into Department of Livestock's Animal Health Enterprise fund.
4. Any foreseeable revenue generated through fines is expected to be negligible.

Department of Labor and Industry (DLI)

5. The total rule making costs to the Board of Veterinary Medicine are estimated to be \$10,000.
6. The board will utilize the department legal services to complete the necessary revisions. Rule making costs include Secretary of State fees for rules proposals and adoption.
7. DLI anticipates a nominal number of complaints with potential for investigations. Costs can be covered by current resources within the department.
