In valuing the property, the department shall use information available from any source considered reliable. ~~(b)——When valuing residential property under the cost approach, the department shall document why the comparable sales model does not support usage of the comparable sales approach, including an analysis of whether the cost approach is used for other class four residential property in the market area.~~

~~(4)——The department may not adopt a lower or different standard of value from market value in making the official assessment and appraisal of the value of property, except:~~

~~(a)——the market value for agricultural implements and machinery is the average wholesale value category as provided in published national agricultural and implement valuation guides. The valuation guide must provide average wholesale values specific to the state of Montana or a region that includes the state of Montana. The department shall adopt by rule the valuation guides used as provided in this subsection (4)(a). If the average wholesale value category is unavailable, the department shall use a comparable wholesale value category.~~

~~(b)——for agricultural implements and machinery not listed in an official guide, the department shall prepare a supplemental manual in which the values reflect the same depreciation as those found in the official guide;~~

~~(c)——(i) for condominium property, the department shall establish the value as provided in subsection (5); and~~

~~(ii)——for a townhome or townhouse, as defined in 70-23-102, the department shall determine the value in a manner established by the department by rule; and~~

~~(d)——as otherwise authorized in Titles 15 and 61.~~

~~(5)——(a) Subject to subsection (5)(c), if sufficient, relevant information on comparable sales is available, the department shall use the sales comparison approach to appraise residential condominium units.~~

~~(c) — If sufficient, relevant information on comparable sales is not available for residential condominium units or if sufficient, relevant information on income is not made available for commercial condominium units, the department shall value condominiums using the cost approach. When using the cost approach, the department shall value the units individually and allocate only the common area elements to the units based on the percentage of undivided interest in the condominium declaration.~~

~~(6) — For purposes of taxation, assessed value is the same as appraised value.~~

~~(a) — Properties in 15-6-131, under class one, are assessed at 100% of the annual net proceeds after deducting the expenses specified and allowed by 15-23-503 or, if applicable, as provided in 15-23-515, 15-23-516, 15-23-517, or 15-23-518.~~

~~(b) — Properties in 15-6-132, under class two, are assessed at 100% of the annual gross proceeds.~~

~~(c) — Properties in 15-6-133, under class three, are assessed at 100% of the productive capacity of the lands when valued for agricultural purposes. All lands that meet the qualifications of 15-7-202 and section 11 are valued as agricultural lands for tax purposes.~~

Section 6. Section 15-10-420, MCA, is amended to read:

"15-10-420. Procedure for calculating levy. (1) (a) Subject to the provisions of this section, a governmental entity that is authorized to impose mills may impose a mill levy sufficient to generate the amount of property taxes actually assessed in the prior year plus one-half of the average rate of inflation for the prior 3 years. The maximum number of mills that a governmental entity may impose is established by calculating the number of mills required to generate the amount of property tax actually assessed in the governmental unit in the prior year based on the current year taxable value, less the current year's newly taxable value, plus one-half of the average rate of inflation for the prior 3 years.

(b) A governmental entity that does not impose the maximum number of mills authorized under subsection (1)(a) may carry forward the authority to impose the number of mills equal to the difference between the actual number of mills imposed and the maximum number of mills authorized to be imposed. 1 authority carried forward may be imposed in a subsequent tax year.

2 (c) For the purposes of subsection (1)(a), the department shall calculate one-half of the average
3 rate of inflation for the prior 3 years by using the consumer price index, U.S. city average, all urban consumers,
4 using the 1982-84 base of 100, as published by the bureau of labor statistics of the United States department of
5 labor.

6 (2) A governmental entity may apply the levy calculated pursuant to subsection (1)(a) plus any
7 additional levies authorized by the voters, as provided in 15-10-425, to all property in the governmental unit,
8 including newly taxable property.

9 (3) (a) For the purposes of this section, newly taxable property includes:

- 10 (i) annexation of real property and improvements into a taxing unit;
- 11 (ii) construction, expansion, or remodeling of improvements;
- 12 (iii) transfer of property into a taxing unit;
- 13 (iv) subdivision of real property; and
- 14 (v) transfer of property from tax-exempt to taxable status.

15 (b) Newly taxable property does not include an increase in value that arises because of an
16 increase in the incremental value within a tax increment financing district.

17 (4) (a) For the purposes of subsection (1), the taxable value of newly taxable property includes the
18 release of taxable value from the incremental taxable value of a tax increment financing district because of:

- 19 (i) a change in the boundary of a tax increment financing district;
- 20 (ii) an increase in the base value of the tax increment financing district pursuant to 7-15-4287; or
- 21 (iii) the termination of a tax increment financing district.

22 (b) If a tax increment financing district terminates prior to the certification of taxable values as
23 required in 15-10-202, the increment value is reported as newly taxable property in the year in which the tax
24 increment financing district terminates. If a tax increment financing district terminates after the certification of
25 taxable values as required in 15-10-202, the increment value is reported as newly taxable property in the
26 following tax year.

5 ~~nonqualified agricultural land as described in 15-6-133(1)(c).~~

6 (5) Subject to subsection (8), subsection (1)(a) does not apply to:

7 (a) school district levies established in Title 20; or

8 (b) a mill levy imposed for a newly created regional resource authority.

9 (6) For the purposes of subsection (1)(a), taxes imposed do not include net or gross proceeds
10 taxes received under 15-6-131 and 15-6-132.

11 (7) In determining the maximum number of mills in subsection (1)(a), the governmental entity:

12 (a) may increase the number of mills to account for a decrease in reimbursements; and

13 (b) may not increase the number of mills to account for a loss of tax base because of legislative
14 action that is reimbursed under the provisions of 15-1-121(7).

15 (8) The department shall calculate, on a statewide basis, the number of mills to be imposed for the
16 purposes of 15-10-109, 20-9-331, 20-9-333, 20-9-360, and 20-25-439. However, the number of mills calculated
17 by the department may not exceed the mill levy limits established in those sections. The mill calculation must
18 be established in tenths of mills. If the mill levy calculation does not result in an even tenth of a mill, then the
19 calculation must be rounded up to the nearest tenth of a mill.

20 (9) (a) The provisions of subsection (1) do not prevent or restrict:

21 (i) a judgment levy under 2-9-316, 7-6-4015, or 7-7-2202;

22 (ii) a levy to repay taxes paid under protest as provided in 15-1-402;
