### **Description of fiscal impact**

HB 398 generally revises utilization review laws and establishes requirements and qualifications of individuals making or reviewing adverse determinations. There is no fiscal impact to the state since the proposed legislation does not require the state to expand oversight or provide additional services.

### **FISCAL ANALYSIS**

#### **Assumptions**

#### **State Auditor's Office**

1. HB 398 requires a health insurer or utilization review organization to honor certifications for health care services granted by a previous insurer for at least three months when a covered person changes health plans. It also extends the minimum validity period of a certification approving health care service from three months to six months, and certifications for chronic conditions are valid for twelve months. HB 398 also outlines that only physicians with specific qualifications can make adverse determinations or review grievances.
2. There is no fiscal impact to the State Auditor's Office since the proposed legislation does not expand the office's oversight or require the office to provide any new services.
