Description of fiscal impact

SB 301 would shift certain findings under DEQ to the Public Service Commission. The 300-day window of consideration allows the agencies to operate within their existing processes related to utility regulation. Therefore, SB 301 has no fiscal impact to the State of Montana.

FISCAL ANALYSIS

Assumptions

1. DEQ administers the Montana Major Facility Siting Act (MFSA) in Title 75, chapter 20, Montana Code Annotated.
2. SB 301 would shift certain findings under MFSA from DEQ to the Public Service Commission.
3. For utilities that elect to pursue the new certification process proposed in the bill, DEQ would continue to review applications for electric transmission facilities under MFSA with existing resources but would not be responsible for making findings related to need or public interest as part of its review.
