Description of fiscal impact

SB 155 creates a food safety panel and program at the Department of Agriculture.

FISCAL ANALYSIS

Assumptions

Department of Agriculture

1. There is no reference to a funding source or revenue stream, thus it is assumed that costs associated with the oversight of the food safety panel pursuant to Section 1 and the enforcement pursuant to Section 3 will be funded from the general fund.
2. It is assumed that the enforcement pursuant to Section 3 will require one program manager at an annual personnel cost of \$114,358, six field inspectors at an annual personnel cost of \$87,610 (each), one chemist at an annual personnel cost of \$95,534, and one administrative staff at an annual personnel cost of \$79,893. All personal services costs include benefits. Assumed a 1.5% increase in personal costs each year after FY 2027.
3. Overhead costs include office packages of \$3,000 per FTE (8*\$3000 = \$24,000).
4. There would be 4 meetings annually to be held at the Department of Agriculture. It is assumed 3 panel members will travel to attend. The total estimated cost, including mileage, lodging, and meals is \$3,337 per meeting.
5. It is assumed there would be 25 inspections per field inspector annually. The annual cost for the inspections including mileage, lodging, and meals is estimated to be \$41,715.
6. FDA Food Safety Training and Certification expenses are assumed to be provided by federal government, however out-of-state travel costs are assumed to be \$3,000 per FTE for the first year of program implementation, totaling \$27,000 in FY2024.
7. These assumptions were made based on similar programs managed within the Department of Agriculture.
