EFFECTIVE DATE AND AN APPLICABILITY DATE."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MONTANA:

NEW SECTION. Section 1. Short title -- purpose -- scope -- exceptions. (1) [Sections 1 through-5
4] may be cited as the "Montana Dental Insurance Transparency and Accountability Act".

(2) The purpose of [sections 1 through-5 4] is to:

(a) require that dental insurance coverage has a medical loss ratio that is transparent to the public
and fair to covered individuals; and

(b) provide for transparency of the expenditure of dental health care plan premiums and to require
annual reports and remediation if the dental loss ratio falls below a certain percentage.

(3) The provisions of [sections 1 through-5 4] apply to all policies and certificates of individual and
group dental insurance offered to, renewed for, or issued to Montana residents by a disability insurer offering
dental coverage.

(4) [Sections 1 through-5 4] do not apply to health insurance coverage that has dental benefits
imbedded in the plan in addition to other medical benefits and is subject to the minimum medical loss ratio
requirements of Public Law 111-148, the Patient Protection and Affordable Care Act.

(5) [Sections 1 through-5 4] do not apply to dental care services covered under medicaid or the
healthy Montana kids plan provided for in Title 53, chapter 4, part 11.

1

2 NEW SECTION. Section 2. Definitions. As used in [sections 1 through ~~5~~ 4], the following definitions
3 apply:

4 (1) (a) "Dental insurer" means an insurance company licensed to do business in the state that
5 offers coverage for dental services, including excepted benefits as defined in 33-22-140.

6 (b) The term does not include health insurance coverage described in [section 1(4)].

7 (2) "Dental loss ratio" means the percentage of premium dollars spent on patient care as
8 calculated pursuant to subsection (3)(b)(i).

9 (3) (a) "Medical loss ratio" is the minimum percentage of all premium funds collected by an insurer
10 each year that must be spent on actual patient care rather than overhead costs. This minimum required
11 percentage that dental insurance plans must meet for the portion of patient premiums must be dedicated to
12 patient care rather than administrative and overhead costs ~~or the difference must be refunded in the form of a~~
13 ~~rebate.~~

14 (b) The dental loss ratio is calculated by dividing the numerator by the denominator, in which:

15 (i) the numerator is the sum of the amount incurred for clinical dental services provided to
16 enrollees, the amount incurred on activities that improve dental care quality, and other incurred claims as
17 defined in 45 CFR 158.140(a); and

18 (ii) the denominator is the total amount of premium revenue, excluding federal and state taxes,
19 licensing and regulatory fees paid, nonprofit community benefit expenditures as defined in 45 CFR 158.162(c),
20 and any other payments required by federal law.

21

22 NEW SECTION. Section 3. Transparency of dental insurance premiums. (1) A dental insurer that
23 issues, sells, or renews a plan, policy, contract, or certificate covering dental services shall file by March 1 of
24 each year with its annual statement a medical dental loss ratio report with the commissioner of securities and
25 insurance that is organized by market and product type and contains similar information required in the 2013
26 federal medical loss ratio annual reporting form. The filing must also report additional data that includes the
27 number of enrollees, the annual maximum coverage limit, and the number of enrollees who meet or exceed the

1 annual coverage limit.

2 (2) (a) The dental loss ratio reporting year must be for the policy year during which dental
3 coverage is provided by the insurer. All terms used in the dental loss ratio annual report have the same
4 meaning as used in the federal Public Health Service Act, 42 U.S.C. 300gg-18, and 45 CFR, part 158.

5 (b) If data verification of the dental insurer's representations in the dental loss ratio annual report is
6 considered necessary, the commissioner shall provide the dental insurer with a notification of the additional
7 information needed within 30 days.

8 (c) The dental insurer has 30 days from the date of notification to submit to the commissioner all
9 requested data. The commissioner may extend the time for a dental insurer to comply with this subsection on a
10 finding of good cause.

11 (3) By January 1 of the year after the commissioner receives the dental loss ratio information
12 collected pursuant to [sections 1 through [5.4](#)], the commissioner shall make the information, including the
13 aggregate dental loss ratio and other data reported pursuant to this section, available to the public in a
14 searchable format on a public website that allows members of the public to compare dental loss ratios among
15 insurers by plan type. The commissioner shall accomplish this by:

16 (a) posting the information on the department's website; and

17 (b) requiring the insurer to publish their specific information on the dental insurer's website.

18 (4) The commissioner shall report biennially the data in this section to the economic affairs interim
19 committee in accordance with 5-11-210.
