1 comply with the request if unable to verify a request received under this section.

2 (6) (a) Not later than 45 days after the date the ~~office of public instruction education and workforce~~
3 ~~data governing board~~ receives a verifiable request under this section, the ~~office of public instruction board~~ shall
4 delete the student's education data ~~from the statewide K-12 data system~~ and disclose free of charge to the
5 student or parent the contents of the deleted education data.

6 (b) The ~~office of public instruction education and workforce data governing board~~ may extend the
7 time in which to comply with subsection (6)(a) by an additional 45 days if reasonably necessary or by an
8 additional 90 days after considering the number and complexity of verifiable requests received. The extension
9 may be made only once. The ~~office of public instruction board~~ shall notify the student or parent of the extension
10 and the reason for the delay within the period prescribed.

11 (7) The ~~office of public instruction education and workforce data governing board~~ shall adopt ~~rules~~
12 ~~policies pursuant to the board's authority under 20-7-138~~ to implement the provisions of this section.

14 **Section 2.** Section 20-7-104, MCA, is amended to read:

15 **"20-7-104. Transparency and public availability of public school performance data -- reporting -**
16 **- availability for timely use to improve instruction.** (1) The office of public instruction shall establish,
17 maintain, and continually improve a statewide K-12 data system that, at a minimum:

18 (a) includes data entry and intuitive reporting options that school districts can use to make timely
19 decisions that improve instruction and impact student performance while creating a collaborative environment
20 for parents, teachers, and students to work together in improving student performance. Options that the office
21 of public instruction shall incorporate and make available for each school district must include data linkages to
22 provide for automated conversion of data from systems already in use by school districts or by the office of
23 public instruction that allow districts to collect, manage, and present local classroom assessment scores,
24 grades, attendance, and other data to assist in instructional intervention alongside the existing school
25 accountability and statewide student achievement results. The office of public instruction shall ensure that the
26 design of the system is enhanced to prioritize collaborative support of each student's needs by classroom
27 educators, administrators, and parents.
