Description of fiscal impact

HB 491 revises alcoholic beverage laws that involve Continuing Care Retirement Community (CCRC) licenses. The bill allows the delivery of alcoholic beverages to residents' individual living units, the sale of alcoholic beverages at a multitude of locations, and limits noncontiguous storage areas to one if to the CCRC campus has two or more service buildings. It also provides new definitions to "campus", "dining area", and "graduated level of care". The Department of Revenue would need to update forms, rules, and other informational documents. There is no fiscal impact.

FISCAL ANALYSIS

Assumptions

1. The Department of Revenue would need to update forms, rules, and other informational documents, but those costs can be absorbed with existing authority.
2. The department anticipates CCRCs to apply for alcohol licenses to receive the privileges under this bill. There would be a minimal impact to the Department of Revenue from CCRCs that currently have no license or renewals of current licensees that wish to further benefit from the HB 491's added privileges.

Technical Concerns

1. In 16-4-315 (5) there is a "to" between continuing care retirement community and residents' that seems out of place.
2. It is unclear how continuing care retirement communities will add the additional buildings to the licensed premises.
