Description of fiscal impact

HB 670 designates unused customer generated kilowatt hours to the existing accounts established under 69-8-412, MCA. As the funds are in addition to an already established process and fund account, there should be no additional impact programmatically or fiscally.

FISCAL ANALYSIS

Assumptions

Department of Environmental Quality

1. Section 2 of the bill requires that any unused kilowatt-hour credits granted to a public utility by a net metering customer must be credited to the fund established in 69-8-412(1)(b), MCA. Currently, unused kilowatt-hour credits generated by a customer are transferred to the public utility. HB 670 does not change the allocation of funding to DEQ.

Department of Public Health and Human Services

2. HB 670 designates unused customer generated kilowatt hours to the existing accounts established under 69-8-412, MCA. As the funds are in addition to an already established process and fund account, there should be no additional impact programmatically or fiscally.
