Description of fiscal impact

General Fund Balance

SB 109 revises the definition of "treating physician" to include physical therapists. There will not be a fiscal impact for the state.

FISCAL ANALYSIS

Assumptions

Department of Labor and Industry

1. The addition of licensed physical therapists to the definition of "treating physician" will not create any additional work or added operating costs to the department.

Montana State Fund

- 2. Allowing physical therapist to be included within the definition of 'treating physician' is expected to increase the volume of treating physicians in the state.
- 3. The fiscal impact cannot be determined; it is unknown whether the increased volume of treating physicians from adding physical therapists would impact costs.
- 4. A treating physician is a person primarily responsible for delivery and coordination of the injured employee's medical services for treatment of a workers' compensation injury or occupational disease.
- 5. This bill does not increase an injured employees' access to physicians, lab work, prescriptions, or admittance to a hospital.
