Description of fiscal impact

HB 639 changes the definition and penalties of existing gambling law to enhance Gambling Control's (GCD) ability to combat illegal online casinos offering their gambling enterprises in Montana. If this bill is adopted as written with changes to the disposal of fines and penalties under 23-5-123, GCD would use these funds for additional investigative and legal expenses created by these cases, of which there are many. Using fine & penalties amount from FY 2024, this would give back approximately \$13,000 to GCD.

FISCAL ANALYSIS

Assumptions

Department of Justice

- 1. HB 639 will make it a felony instead of a misdemeanor to offer this type of gambling in Montana.
- In FY 2024, fines and penalties totaled \$13,241. These fine are currently deposited into the general fund but under HB 639 would be deposited in the Gambling Control Division state special revenue fund. Potential increases in fine revenue cannot be determined.

Department of Justice

3. Because HB 639 creates a felony offense, punishable by a fine up to \$50,000 and up to 10 years in prison, there may be an impact to the Department of Corrections inmate count, the caseload of the Office of Public Defender, and the docket of district courts. The impact cannot be determined but is not anticipated to be significant.
